

VH18BW

Super-Fast Type-C Wall Charger

When time is against you, the ability to charge your phone quickly can be invaluable.

This super-convenient USB Type-C Wall Charger provides a super-fast 18W for iPhone and all other Power Delivery compatible Smartphones, or up to 10W for other USB powered devices.

- SUPER-FAST for iPhone, iPad + all PD (Power Delivery) compatible Smartphones
- Fully compatible with all non PD devices, up to 50% faster than a standard 5W charger
- Compatible with a wide range of other devices using Type-C connection such as iPad and Nintendo Switch
- Energy efficient, intelligent '*controlled-charging*' adjusts to suit each device
- Full Voltage, Current, Short Circuit and Temperature protection

Specifications

Code	VH18BW
Input	100 - 240V~50/60Hz 0.45A Max
Number of Ports	1
Port 1 / USB-C PD	up to 18W
Max Output	18W
Suitable for charging	All iPad models, Nintendo Switch, iPhone, Samsung, all other major brand smartphones and USB devices
Dimensions (WxHxD)	5 x 4 x 7.5 cm
Weight	60g
EAN	5014117970434

What is Power Delivery?

USB Power Delivery (PD) is a fast charging specification using USB Type-C and is incorporated into a wide variety of devices including smartphones, tablets, laptops and more.

This means the same charger can be used to charge your laptop, your phone and other devices. The days of having to carry multiple chargers are over.

PD can charge compatible smartphones from 0 to 50% in just 30 minutes, or up to 70% faster than with a standard 5W charger.

PD is also smart, it detects how much power a device is able to receive, providing the optimal charge and no more, ensuring devices are safe from overheating.

PD requires a USB Type-C cable, or a USB Type-C to Lightning cable for Apple devices.

All Apple iPhones (8 and newer), plus Samsung Galaxy A8, S8 and Note 7 onwards, are PD compatible along with many Smartphones from other brands.
