

VWC10ZB

Fast Wireless Car Charging Pad

This stylish in car Qi charging pad offers convenient charging on the go. Simply place your phone into the holder and receive up to, a fast 10W charge. Far quicker than a conventional 5W in car charger, the easy to use universal holder adjusts to secure your phone.

- Works with all Qi Wireless Charging devices
- FAST for iPhone, Samsung + more
- 7.5 - 10W charging requires QC 3.0 car charger such as VELD VC30CB (sold separately)
- Full protection for Voltage, Current, Short Circuit and Temperature plus LED Charge Indicator
- Includes 1.2m Micro USB to USB Cable

Specifications

Code	VWC10ZB
Input	DC 5V=2.0A, 9V=1.8A
Charging Points	1
Output	up to 10W (5W / 7.5W / 10W)
Max Output	10W
Suitable for Charging	Works with all Qi Wireless Charging Phones, providing up to, a fast 10W charge
Dimensions (WxHxD)	11.5 x 12 x 7.2 cm
Weight	190g
EAN	5014117970526

What is Qi Charging?

Qi is an open standard for wireless charging, sometimes also referred to as inductive charging. Power can be transferred to a compatible device simply by placing it onto a Qi charging pad.

Many of today's latest devices are compatible with Qi wireless charging, including smartphones, smartwatches, true wireless earbuds, and more.

Heat Shielding and Foreign Object Detection features ensure your devices and any other objects that come into contact with the charging surface are safe.

To achieve the maximum output and the fastest charge possible from our wireless Qi charging pads, we recommend pairing with a QC 3.0 wall charger.
